

Campus Visit by Students of SMK Subang Jaya

There's no better way to learn about IACT College than through a campus visit. For that reason, IACT had invited students of Sekolah Menengah Kebangsaan Subang Jaya for a campus visit at IACT College to experience the brand new campus. Marked 14th July 2010, a group of 39 Form Five students led by Ms. Lee Paik Hua, Head of School Counsellor of SMK Subang Jaya visited IACT College.

The three-hour campus visit experience is designed to provide a glimpse into the student's life studying at the 'resort campus'. This interactive and personalized experience prepares the visiting students for their future at IACT. Adding to that, the visit also introduces prospective students to specific academic programmes.

During the campus visit, students attended a brief presentation by Michael Choong, the Chief Operations Officer of IACT College. The presentation explained about IACT academic programmes, admissions, scholarships, financial aid and also included a scenic tour of the college.

Students of SMK Subang Jaya were also able to view all of IACT students' artwork that are on display at The Gallery and the Sculpture Room; ranging from Computer Graphics, Digital Imaging, Digital Illustration, 3D Visualisation, 3D Modeling, Photography, Typography, Animation, Creative Multimedia, Sculptures and Short Films.

The campus visit ended with lots of information being shared with each of the students from SMK Subang Jaya. According to Ms. Lee Paik Hua, the campus visit is a success as it managed to boost the students' enthusiasm to excel in their SPM examination in order to join IACT.

"These students are fully inspired and are full of enthusiasm after the campus visit. Now they have a clearer view on what it is like to study in IACT. The learning method, its brand new campus and state-of-the-art facilities are the main reasons that have made IACT a targeted destination for these youngsters," said Ms. Lee.
